4. DDA Office Heads Conference

Mr. Gambino reported on major topics discussed during last week's DDA Office Heads Conference. Among the many items discussed, those most likely to be of major concern in the near future include staffing and funding shortages, particularly in the Office of Communications, the Civil Service Reform Act, the Agency "Charter Legislation," the NAPA Report and security, information handling and EEO problems. (C)

5. PTOS Teams Busy

25X1A [REDACTED] reported that five two-man teams are currently on the road providing audio countermeasures and physical security support to overseas stations. (C)

25X1A

6. Task Force Proposals

Under current consideration, emanating from recommendations of the Security Review Task Force, is a proposal to place additional Area Security Officer positions in the DDO and NFAC. Also under consideration is a security review of employees' status 26-30 months after entrance-on-duty, possibly to include a repolygraph examination. (C)

The Task Force's recommendations pertaining to information handling are to be given further study by an existing working group operating under the Office of the Comptroller. The magnitude and scope of the information handling and control problem have, for the most part, frustrated attempts to develop acceptable, cost-effective solutions. (C)

7. Personal Note

25X1A [REDACTED] most recently assigned to the Community Security Group, resigned effective 13 April 1979 to accept a position in private industry. (U)
